

Isle of Man Film Festival 2022

“Little Green Shoots” Competition

For filmmakers aged 6 - 16 yrs

Make a Mini-Movie, Save the Planet*

Did you know that film and television programmes have made some of the biggest impacts so far in getting the message out to people about the Big Issues for Our Planet - and Our Future?

We want YOU to make a short film about an issue that really means something to you: something about the Environment around you, the Sea, the Land, the Wildlife, the Green Things, the Blue Things, things Above You, things Below You... just make sure that your film is no more than 10 minutes - and that it has a very important message...and who knows? You might just

save the world! **& win great prizes too*
